Small Fiber Neuropathy
Assessment

SAVE LIVES | BETTER PREVENTIVE CARE

EARLY DETECTION | PREVENT COMPLICATIONS

INCREASE REVENUE | AT NO COST TO PRACTICE

Doctors & Hospitals in New York, Texas & California have found this very beneficial and are efficiently using it for their patients & their practices.

The Advantages:

1. We provide the Arterial Testing Monitor at NO COST
2. We provide the training and pay for your MEDICAL ASSISTANT to operate the device
3. He/She then administers the NON-INVASIVE TESTS in 5-7 minutes
4. The device prints out a CLEAR REPORT with ACCURATE RESULTS
5. The Doctor reads the report to layout his/ her TREATMENT PLAN
6. PRACTICES that benefit: Primary Care, Internal Medicine, Family Medicine, Podiatrist, Osteopathic Etc.
7. PATIENTS that benefit: Those over 40 years old, especially with cardiovascular risk factors (Hypertension, Overweight, Smoker, Diabetic)
8. INSURANCE companies benefit: From early detection of autonomic nerves and artery damage to prevent major complications and expense
9. PAYMENT benefits: INSURANCE companies, including MEDICARE, pay for this preventive testing
